THE policeman becomes your friend when he tells you that those you seek can be found at "the fourth house from the corner on the right side of the street".

The new street guide is designed to establish the same cordial relationship. It gives you the same information in the same friendly manner.

One Dog Can't Do It All

A whoof—a snap of the whip and they are off—mushing over the snow—all the dogs pulling in unison. One dog could not haul the heavy sled but it is the perfect team work—the combination of power ably directed—that makes the achievements of the dog teams glorious examples for man to follow.

Successful merchandising calls for team work—the co-ordination of specialized knowledge—one man, one set of brains cannot do it all.

OUR PERSONALIZED SERVICE

Let us analyze your sales problems—plan the proper merchandising campaign. Our personnel of men and women, trained in sales promotion, each a specialist in his or her phase of merchandising, is at your service ready to concentrate on your particular problem.

Our campaigns have the pulling power that gives assurance of business building results. Consultations invited.

For the first 5,000 cubic feet or less per quarter, at 22 cents per 100 cubic feet (about 30 cents per 1,000 gallons).

For all excess over the first 5,000 cubic feet per quarter, at 5 cents per 100 cubic feet (about 7 cents per 1,000 gallons).

Where the aggregated total use for one independent premises amounts to 750,000 cubic feet or more in any one quarter, the entire quantity will be charged at 5 cents per 100 cubic feet.

Subject to the following minimum quarterly charges:—

(a) Single dwellings, and double houses or blocks (of two or more ground-floor single-tenement sections), each tenement not less than $2.00 per quarter.

(b) Tenement houses, apartment blocks, etc., each tenement or apartment not less than $1.50 per quarter.

(c) Business blocks, manufactories, and other industrial plants, elevators and motors, each bill for each independent premises, not less than $2.50 per quarter.

Special for Elevator Uses—Where the total or aggregated quantity for operating one or more elevators on each independent premises amounts to 33,000 cubic feet or more in any one quarter, and is metered and billed independently of all other uses, the entire quantity will be computed at 5 cents per 100 cubic feet; but no bill hereunder shall be rendered at less than $25.00 per quarter.

Business and industrial buildings of more than one section, and adjoining or adjacent buildings, under one independent ownership as a **plant** (if not separated by a street or by any other buildings or premises under another ownership), may be considered as **one independent premises**, and, as such, subject to the computing and billing of the foregoing meter rates. In all other cases the supply through each service and meter shall be computed and charged as separate and independent bills.

Each quarterly period will be computed and charged for independently of any other quarterly period, and the rates therefor shall be paid accordingly.

When a meter from any cause fails to register the consumption of water, the quantity shall be estimated and the charge made based upon the registration by the meter when in order, or upon the registration for a corresponding prior quarter or period.

Builders' Uses—Where water is to be used in the construction of ordinary framed buildings, or for small building operations where the use may be easily estimated, the meter installation may be temporarily deferred, as an accommodation to the owner or builder, until the completion and occupancy of the building, and a nominal estimated flat rate may be charged for builders' use of water to the owner of the property, who will be held responsible for such use and the payment of such charge.

The Water Registrar and the Supt. shall determine all cases where the foregoing provisions may apply, and each case shall be considered independently of any other, but no such estimated charge shall be less than $1.00.

Miscellaneous and Temporary Uses—In certain cases of miscellaneous and temporary uses of city water, where the quantity used may be small, the charges for same may be estimated instead of being shown by meter, at the discretion of the Water Registrar and the Supt.

The Water Registrar shall have the right to require an advance deposit as security for the payment of water bills, when he shall consider it for the interest of the city to do so; such deposit not to exceed a year's minimum rate for the property to be supplied or a reasonable estimate of the probable annual amount of such bills.

All bills due the City on account of the water works shall be payable at the office of the City Collector, Room 137, Municipal Building Court and Pynchon streets within twenty days after the same are rendered and become due.

Inquiries and claims for correction should be made at the office of the Water Registrar, Room 319, Municipal Building.

The object of the Salvation Army is to carry the Gospel of the Lord Jesus Christ to the thousands who today never darken the doors of the places of worship and to bring the Bible message to the outcast of society, whether in prison or brothel or any place harboring vice, iniquity or intemperance.

When a hungry man is given a meal, or a worker visiting a slum home with a basket of life's necessities, Thanksgiving or Xmas dinners given to the poor, it is not only to relieve an immediate need, it is for a higher purpose of bringing them the message of the Gospel of Light and Love, that the recipient of the humble gifts may think of Him who was rich, but for our sakes became poor and took upon Himself the form of man, and by paying the debt of sin made it possible for us to be reconciled with the Father by the gift of Himself.

Our constant effort is to help others to help themselves; eventually they too become helpers to others.

THE City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the classified list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. Reference Advertising

ONE year is the life of a City Directory. Every day in that year thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.

The City Directory

Does not compete with any other advertising medium, but supplements and complements all other forms of mercantile publicity.

Intelligent Directory Advertising describes desirable merchandise attractively and directs you to the door of the man who has it for sale.

Reference Advertising

ONE year is the life of a City Directory. Every day in that year thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.
